A satellite map of the Western United States, specifically focusing on the mountainous regions of Idaho, Utah, and Colorado. The map displays a dense layer of white clouds over the mountain ranges, contrasting with the brown and tan colors of the surrounding land. Key geographical features and labels include the Snake River, Great Salt Lake, and various national forests and parks such as Yellowstone, Bridgman, Fishlake, Dixie, and Grand. Major cities like Reno, Carson City, Salt Lake City, Provo, Denver, and Colorado Springs are marked. The map also shows state boundaries for Idaho (ID), Utah (UT), and Wyoming (WYO). The Google logo is visible in the bottom left corner.

A satellite map of the Western United States, specifically focusing on the mountainous regions of California, Nevada, and Idaho. The map displays several vertical swaths of satellite imagery, likely from the Landsat 8 mission, showing different dates or sensor configurations. The imagery shows a mix of dark brown and black areas (possibly water or dense vegetation), lighter tan and beige areas (possibly bare ground or snow), and green areas (vegetation). Key geographical features and labels visible include the Salmon-Challis National Forest, the Ashcroft National Forest, the Glen Canyon National Recreation Area, the Sequoia National Forest, and the Navajo National Monument. Major cities and towns such as Las Vegas, Henderson, Mesquite, Page, Montrose, and Casper are labeled. Interstate highways (I-15, I-80, I-84, I-70, I-25) are also marked. The map is overlaid with a grid of latitude and longitude lines. The Google Earth logo is visible in the bottom left corner.

The figure is a satellite map of the Colorado region, showing the state's outline and major cities including Denver, Fort Collins, and Colorado Springs. The map is overlaid with a visualization of Landsat 8 data, showing a range of colors from dark brown to light green, indicating different land cover types. The visualization is applied to a specific area, likely a watershed or a specific land use type. The map is displayed in a 'Map' view, as indicated by the 'Map' and 'Satellite' tabs in the top right corner. The map includes a scale bar at the bottom right, showing a distance of 50 km. The map data is attributed to Google and INEGI, with a copyright notice for 2020.
